

Bay Area FrogWatch at CuriOdyssey

What is FrogWatch?

Bay Area FrogWatch is the local chapter of a national program that monitors frogs and toads.

Bay Area FrogWatch depends on volunteers to collect and report information about local frog and toad populations.

Why monitor frogs and toads?

Their populations all over the world are in decline. It is essential to understand the scale, scope, and cause of these declines.

You can help! You do not have to be an expert to make an important contribution!

What is the time commitment?

Volunteers complete two 30 minute shifts per month anytime after sunset from February to August.

How do I begin?

Attend the FrogWatch training and become a volunteer.

FrogWatch Volunteer Training!
Saturday, February 2, 3-5:30 PM
CuriOdyssey in San Mateo

*To learn more or sign up for
the training, please contact Carmen:
